- Peter's Mtn. Trail - 1.25 mi.
- Unmarked Trails
- Unpaved Roads
- Paved Roads

## HOW TO READ OUR TRAIL MARKERS

Color coordinated hashmarks indicate which trail you are on and what direction to go. Below are some examples of what you may see on the trail:

	A hashmark that is vertical to the ground indicates that the path continues straight. This specific hashmark corresponds with the loop that is marked in red - The Far Outer Loop.
	If a hashmark has more than one color, it means that multiple trails use this part of the path. In this case, the yellow and blue trails - The Middle Loop and Outer Loop.
	If you see two hashmarks angled, it means that the path veers to the right or left. In this case, it means there is a turn to the right ahead on the current trail - The Far Outer Loop.
